NORTON HALL

Supertitles are provided in English. The dialogue is projected on a screen above the stage.

Norton Hall offers 1,300 assigned seats and is air-conditioned. Food and drink (except water) is not permitted inside the building. Access to the balcony seating requires navigating stairs.

The Institution provides regularly scheduled complimentary transportation service in the Main Lot and on the grounds daily from 7:40 a.m. to 8 p.m. during the nine-week summer assembly season. There are additional hours during evening performances. The North Bus and the Lake Tram both stop at Norton Hall.

Accessibility Information

While access to Norton Hall's main entrance requires navigating stairs, guests with mobility challenges can easily enter using the entrance at the rear of the building on Wythe Avenue.

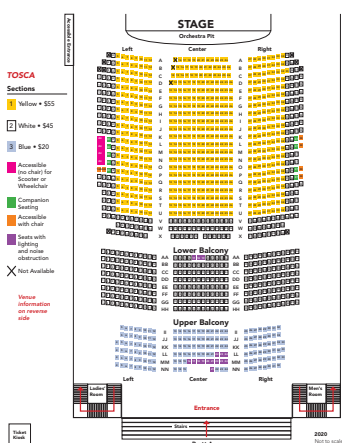

There are a limited number of short-term accessible parking spaces to the rear of Norton Hall, on Root Avenue, and in the Main Lot. A valid state-issued accessible parking permit is required to park in these spaces, and standard parking rates apply.

Norton Hall does not have an elevator; accessible seating is available only in the floor section.

In this venue an Infrared (IR) Assistive Listening System is available. Bring your own equipment or use our complimentary equipment, available for loan during the performance. Ask an usher about the Event Loan Program.

- This technology is line-of-sight. Guests sitting in balconies or other areas with poor sight lines may experience interference or receive no sound signal at all.
- T-Coil technology equipped hearing aids and cochlear implants only need a pendant device to use with their patch cord.
